

Yellow Radio 2018 Report

The Yellow Radio program had an impressive year! 2018 marked a shift in emphasis from Yellow Radio sales to education and protocol training. 159 people took the YR 101 class and 83 followed up with YR 102! There's been a fantastic improvement in Yellow Radio technique, including use of the "Hey you, it's me" protocol, waiting for direction to speak from your Zone Net Control, and the use of important words like "OVER" and "RELAY".

Our weekly practices also showed a great improvement in participation. 275 people checked in in 2018, 108 for the first time. 74 people took a turn at practicing their Zone Net Control skills. We averaged 83 check-ins each week with June 14th blowing it out of the water with 109 participants!

We also introduced the concept of "Observe, Assess, and Report" with a few drills that asked you to find or count certain things. This skill will be crucial in a real emergency and we will be incorporating more fun drills in 2019. Another initiative for 2019 will be to have training for Zone Net Control; it's become clear that this will be an important role during emergencies and we want to make sure all who are interested have the training necessary to feel confident and capable.

This report shows, by Zone, the participants who made 2018 such a great year. The categories represent the number of check-ins for the year:

| | |
|------------|---------|
| Friend: | 1 – 10 |
| Supporter: | 11 – 24 |
| Sustainer: | 25 – 34 |
| Pillar: | 35 – 52 |

There are also notations after names:

- Z** – Performed Zone Net Control duties
- N** – Net Control on 119
- New** – First-time check-in in 2018

Please note that not all Zones indicated who was Zone Net Control each week. If you have updates or corrections, please send them to your Zone Champion.
